Pet Project

■ CI/CD for
Like a Boss

Dima Minka

{RUN}

Pet project - intro:

- **Technology stack**
 - * Easy learning
 - * Personal interest
 - * Trending and popular
- **Dev tools, services, platforms and open source**
 - * Code editors
 - * VCS
 - * CI/CD platforms
 - * Open source packages
- **Cloud platforms**
 - * PaaS (Platform as a Service)
 - * Serverless
 - * Cloud computing

The Simplest cloud platform for developers

Deploy your app in seconds.

Get started now.

Digital Ocean - Products

Droplets

Scalable compute services

Load Balancer

Scale your applications and improve availability

Spaces

Store and deliver vast amounts of content

Block Storage

SSD-based Block Storage to your Droplet

Kubernetes

ask Kirill

One-click applications

Deploy pre-built applications

Cloud computing

Amazon 

Microsoft 

Google 

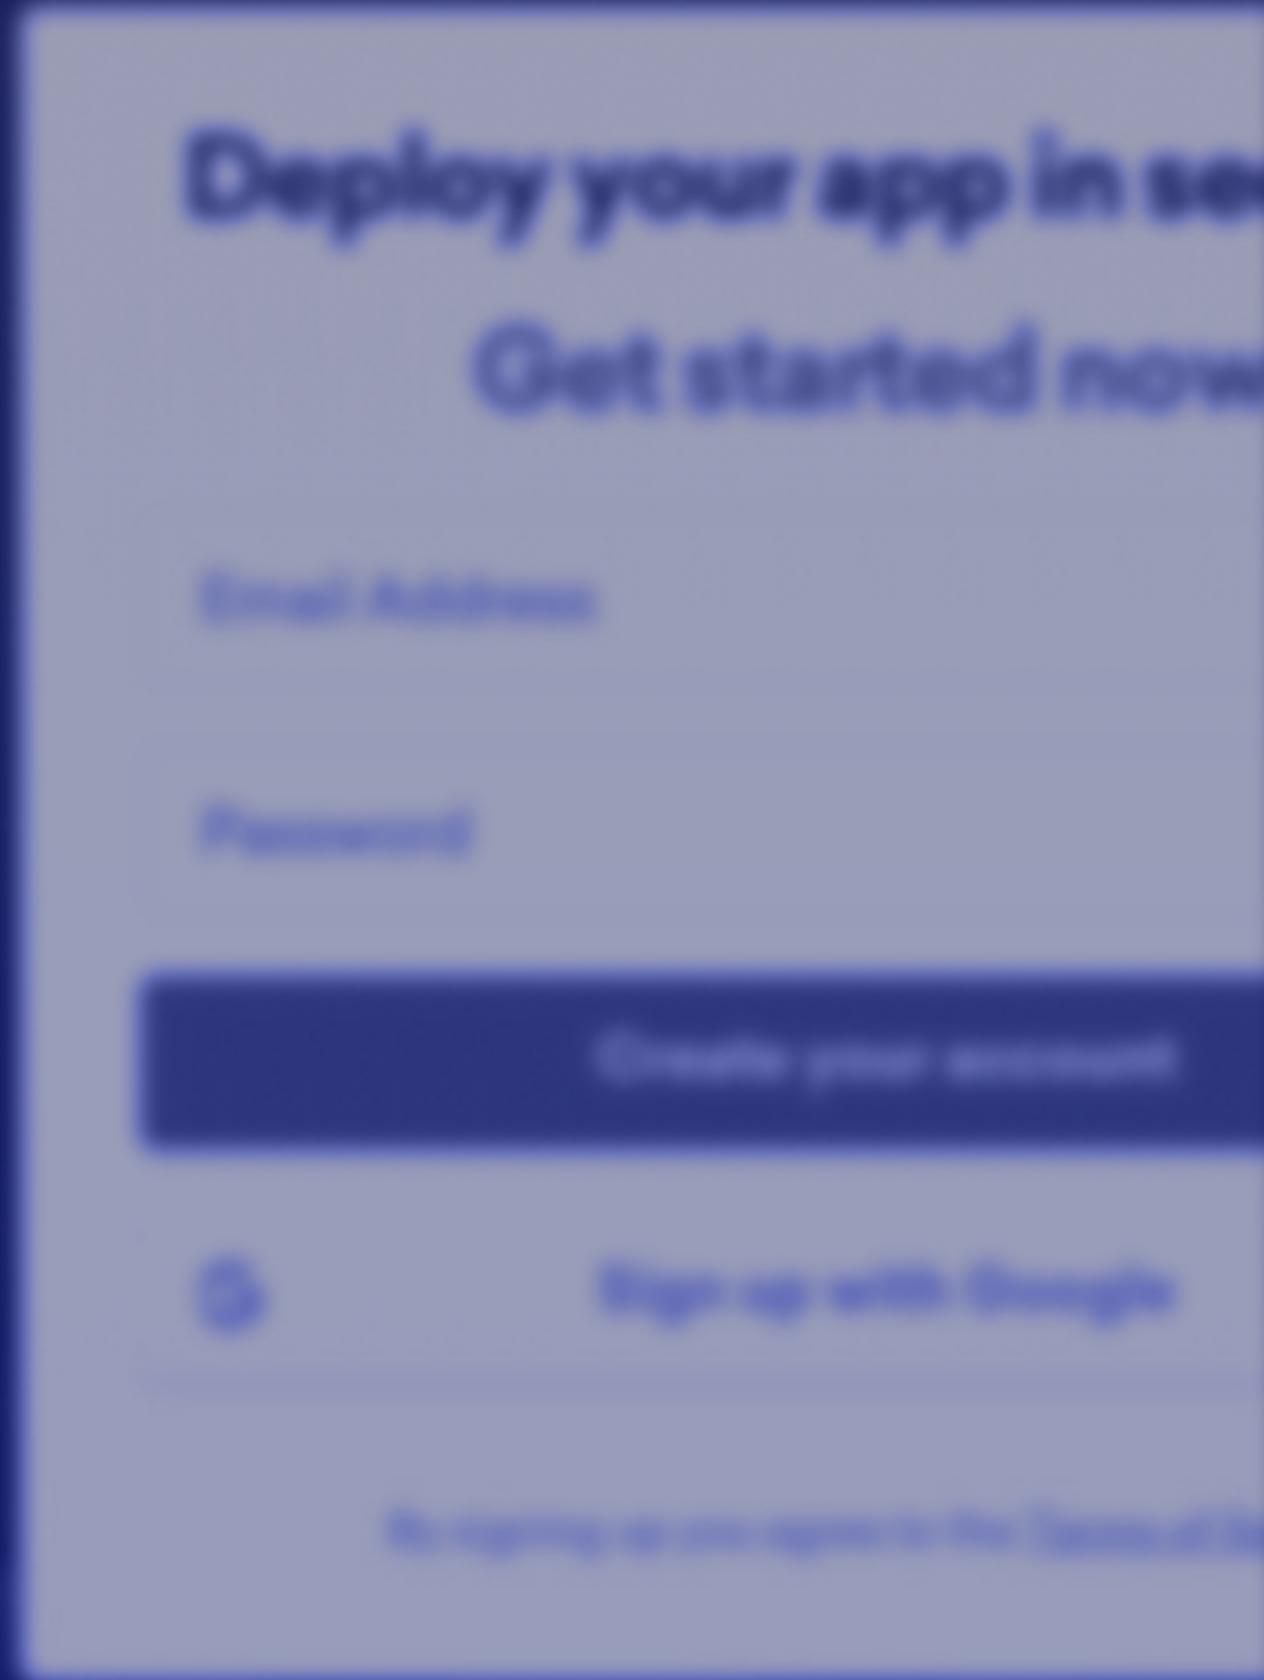

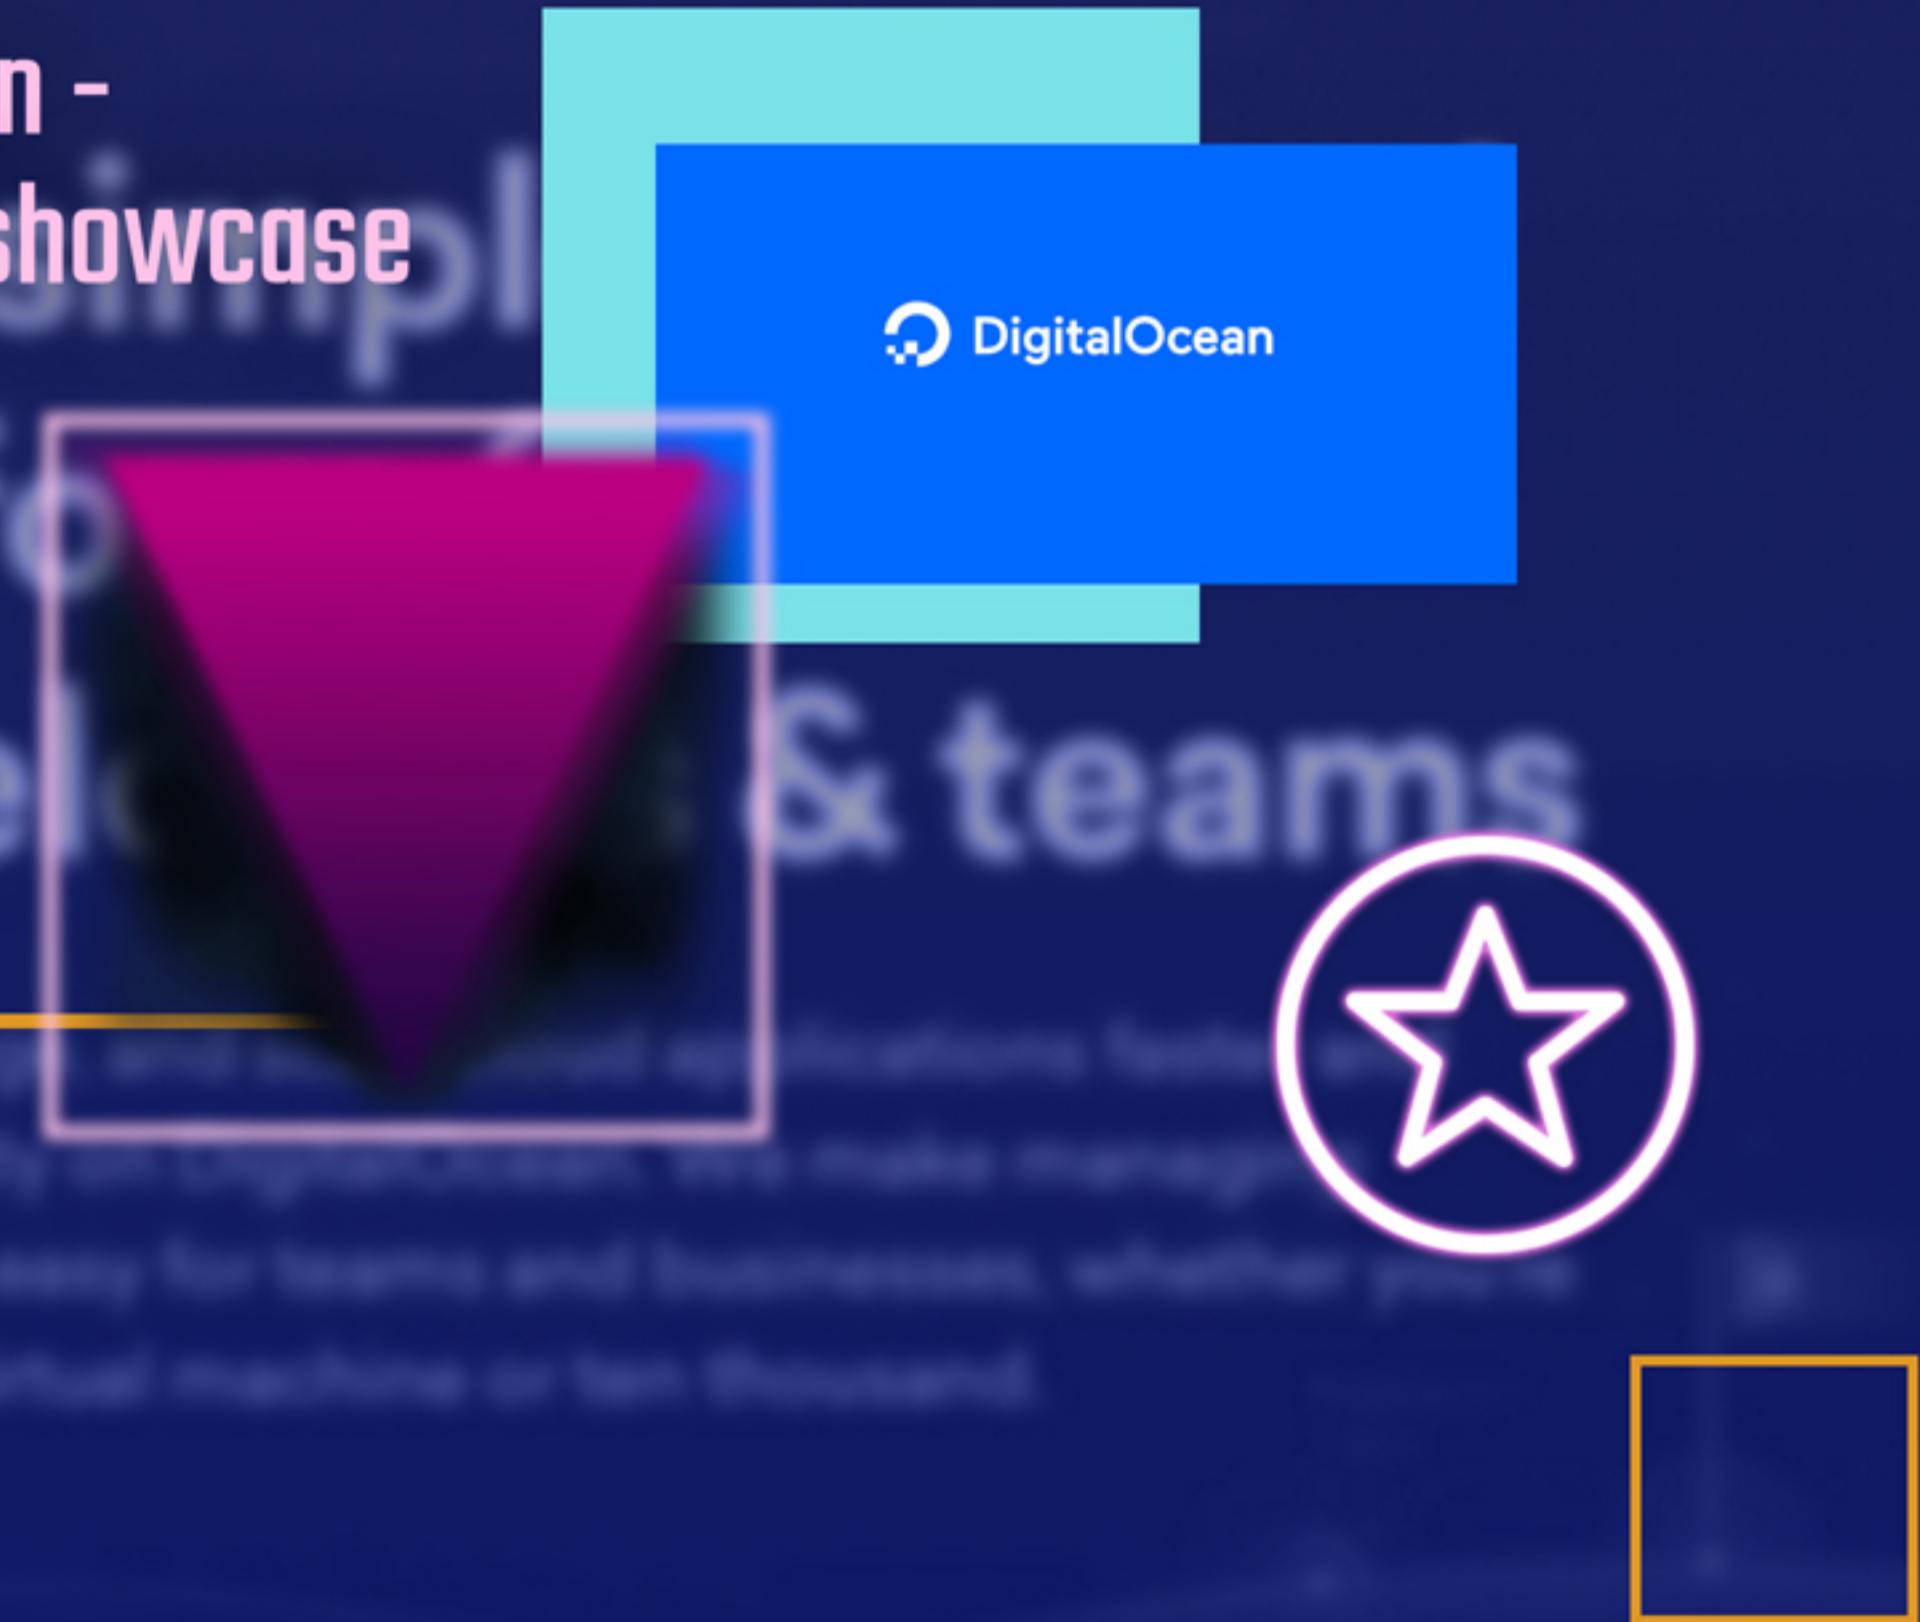

Linode 

Vultr 

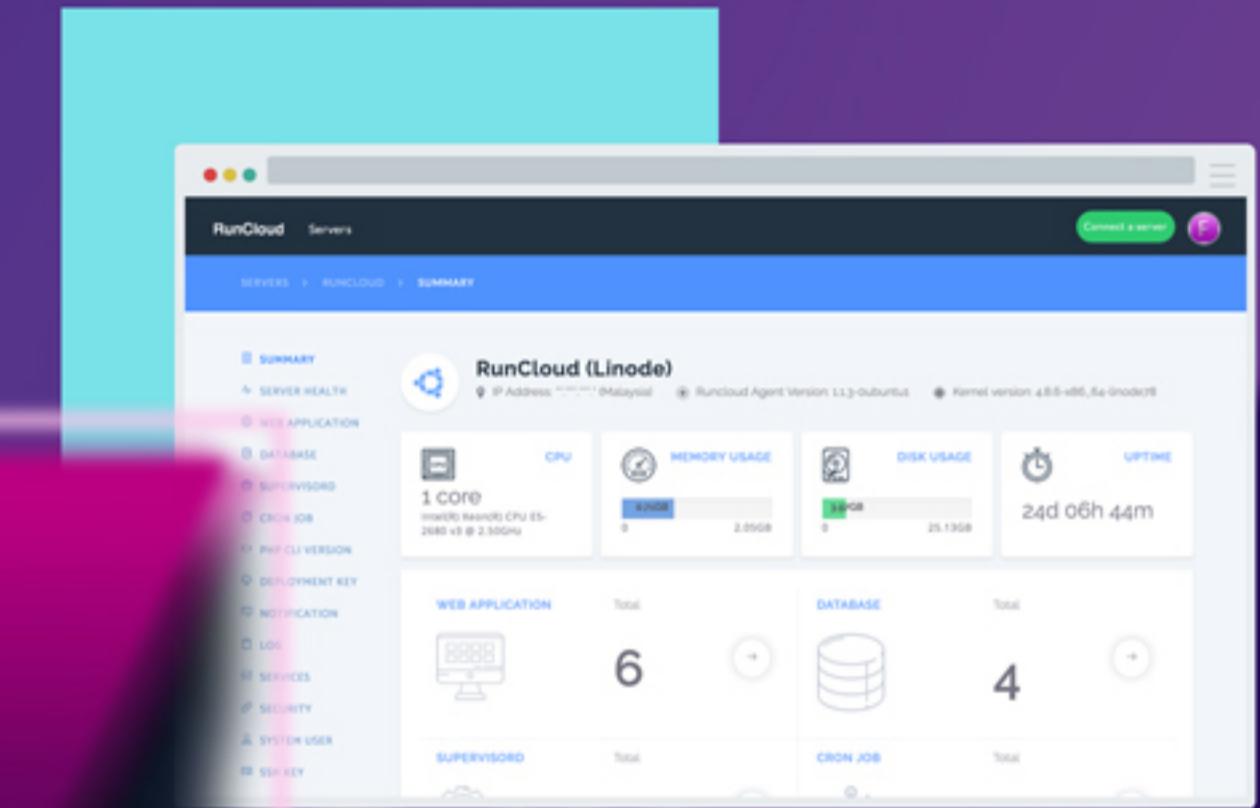

Digital Ocean 

Digital Ocean - droplet init showcase

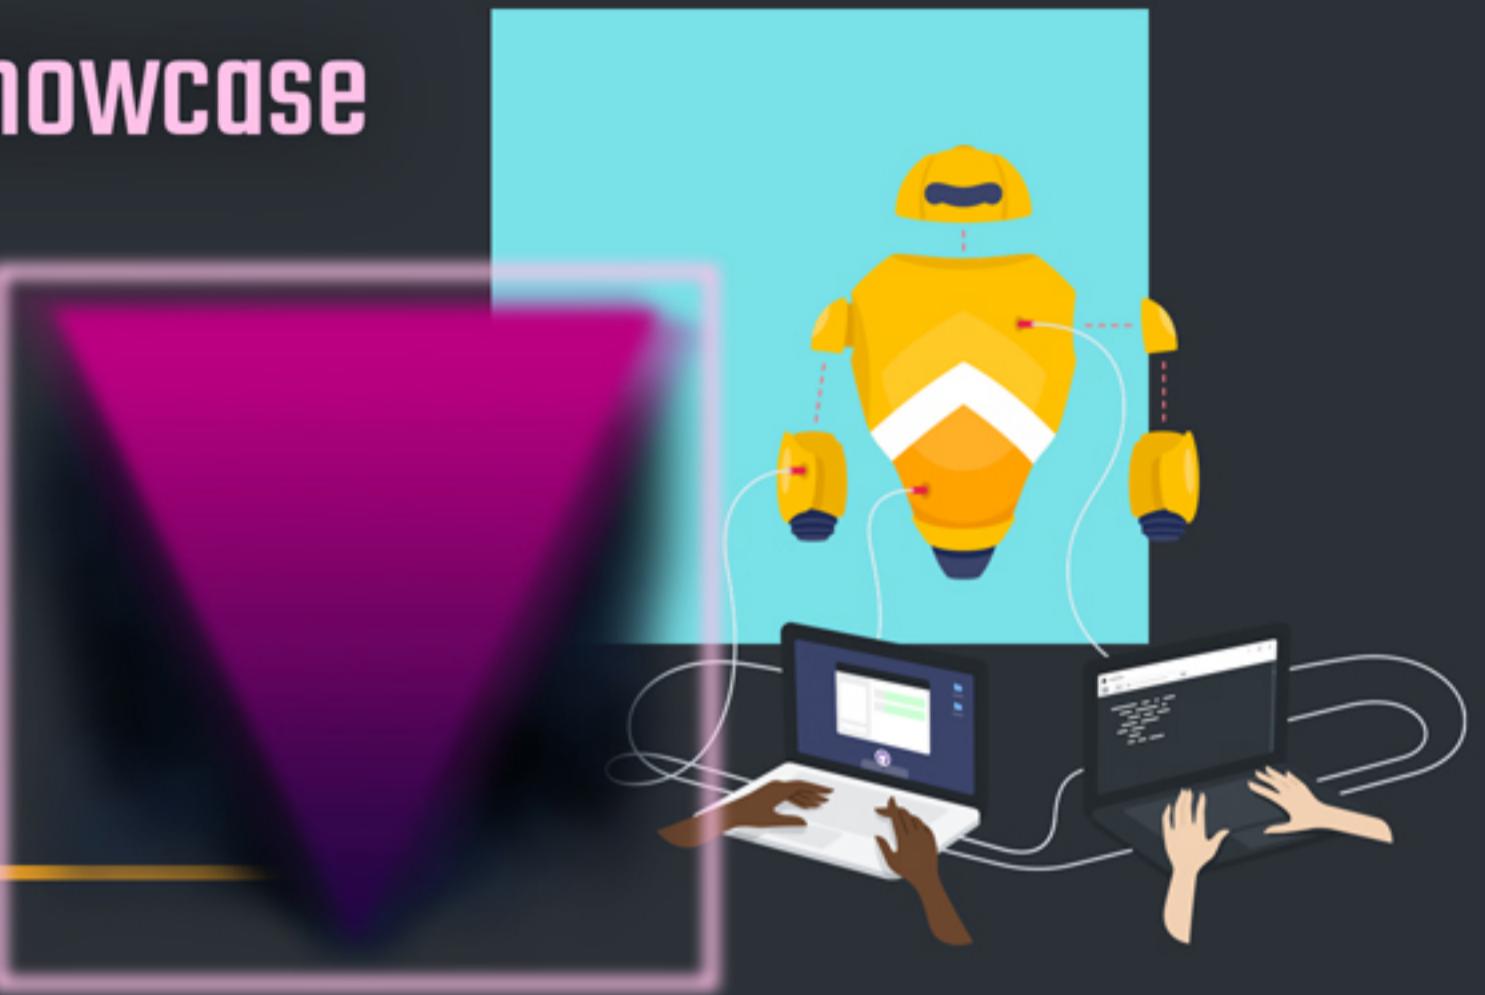

Server Configuration Showcase

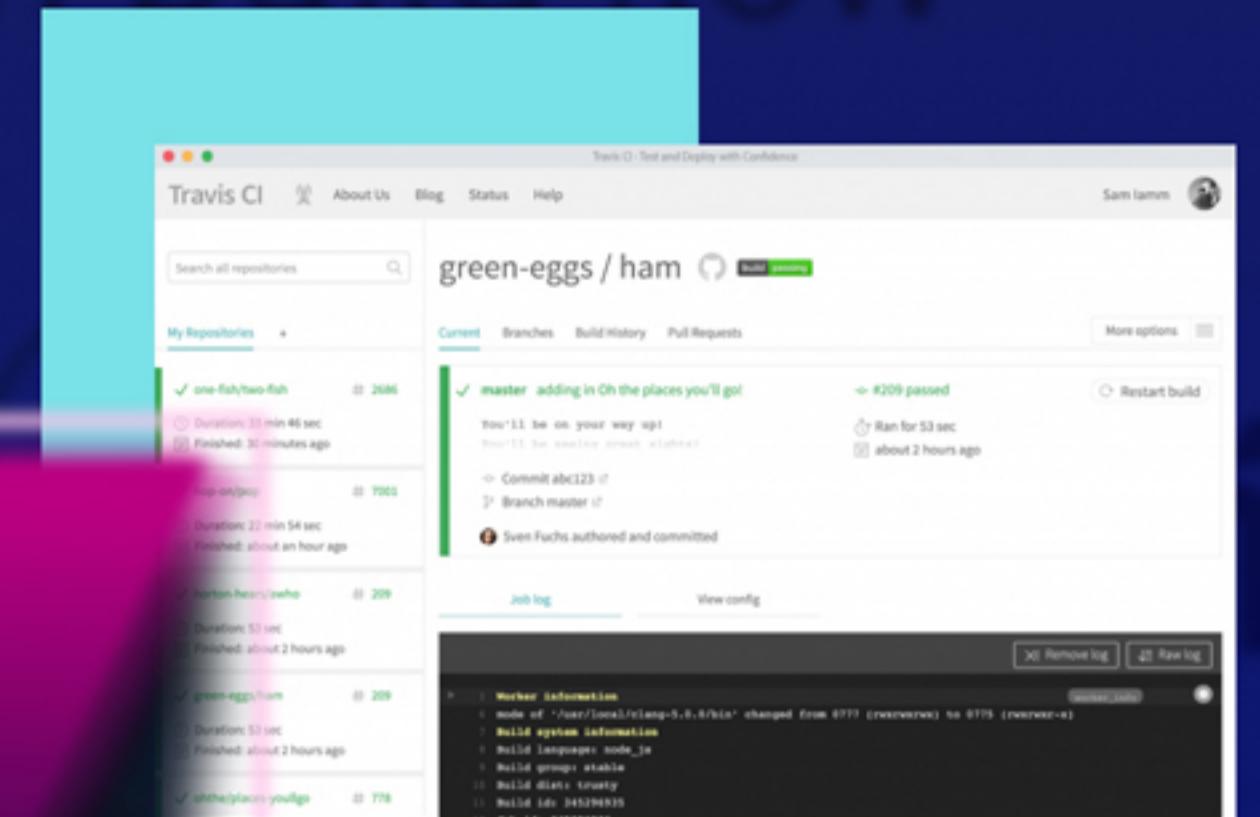

Top 5 PHP Frameworks
2018/2019

Project init Showcase

Travis CI - Test and Deploy Showcase

You push your code to GitHub

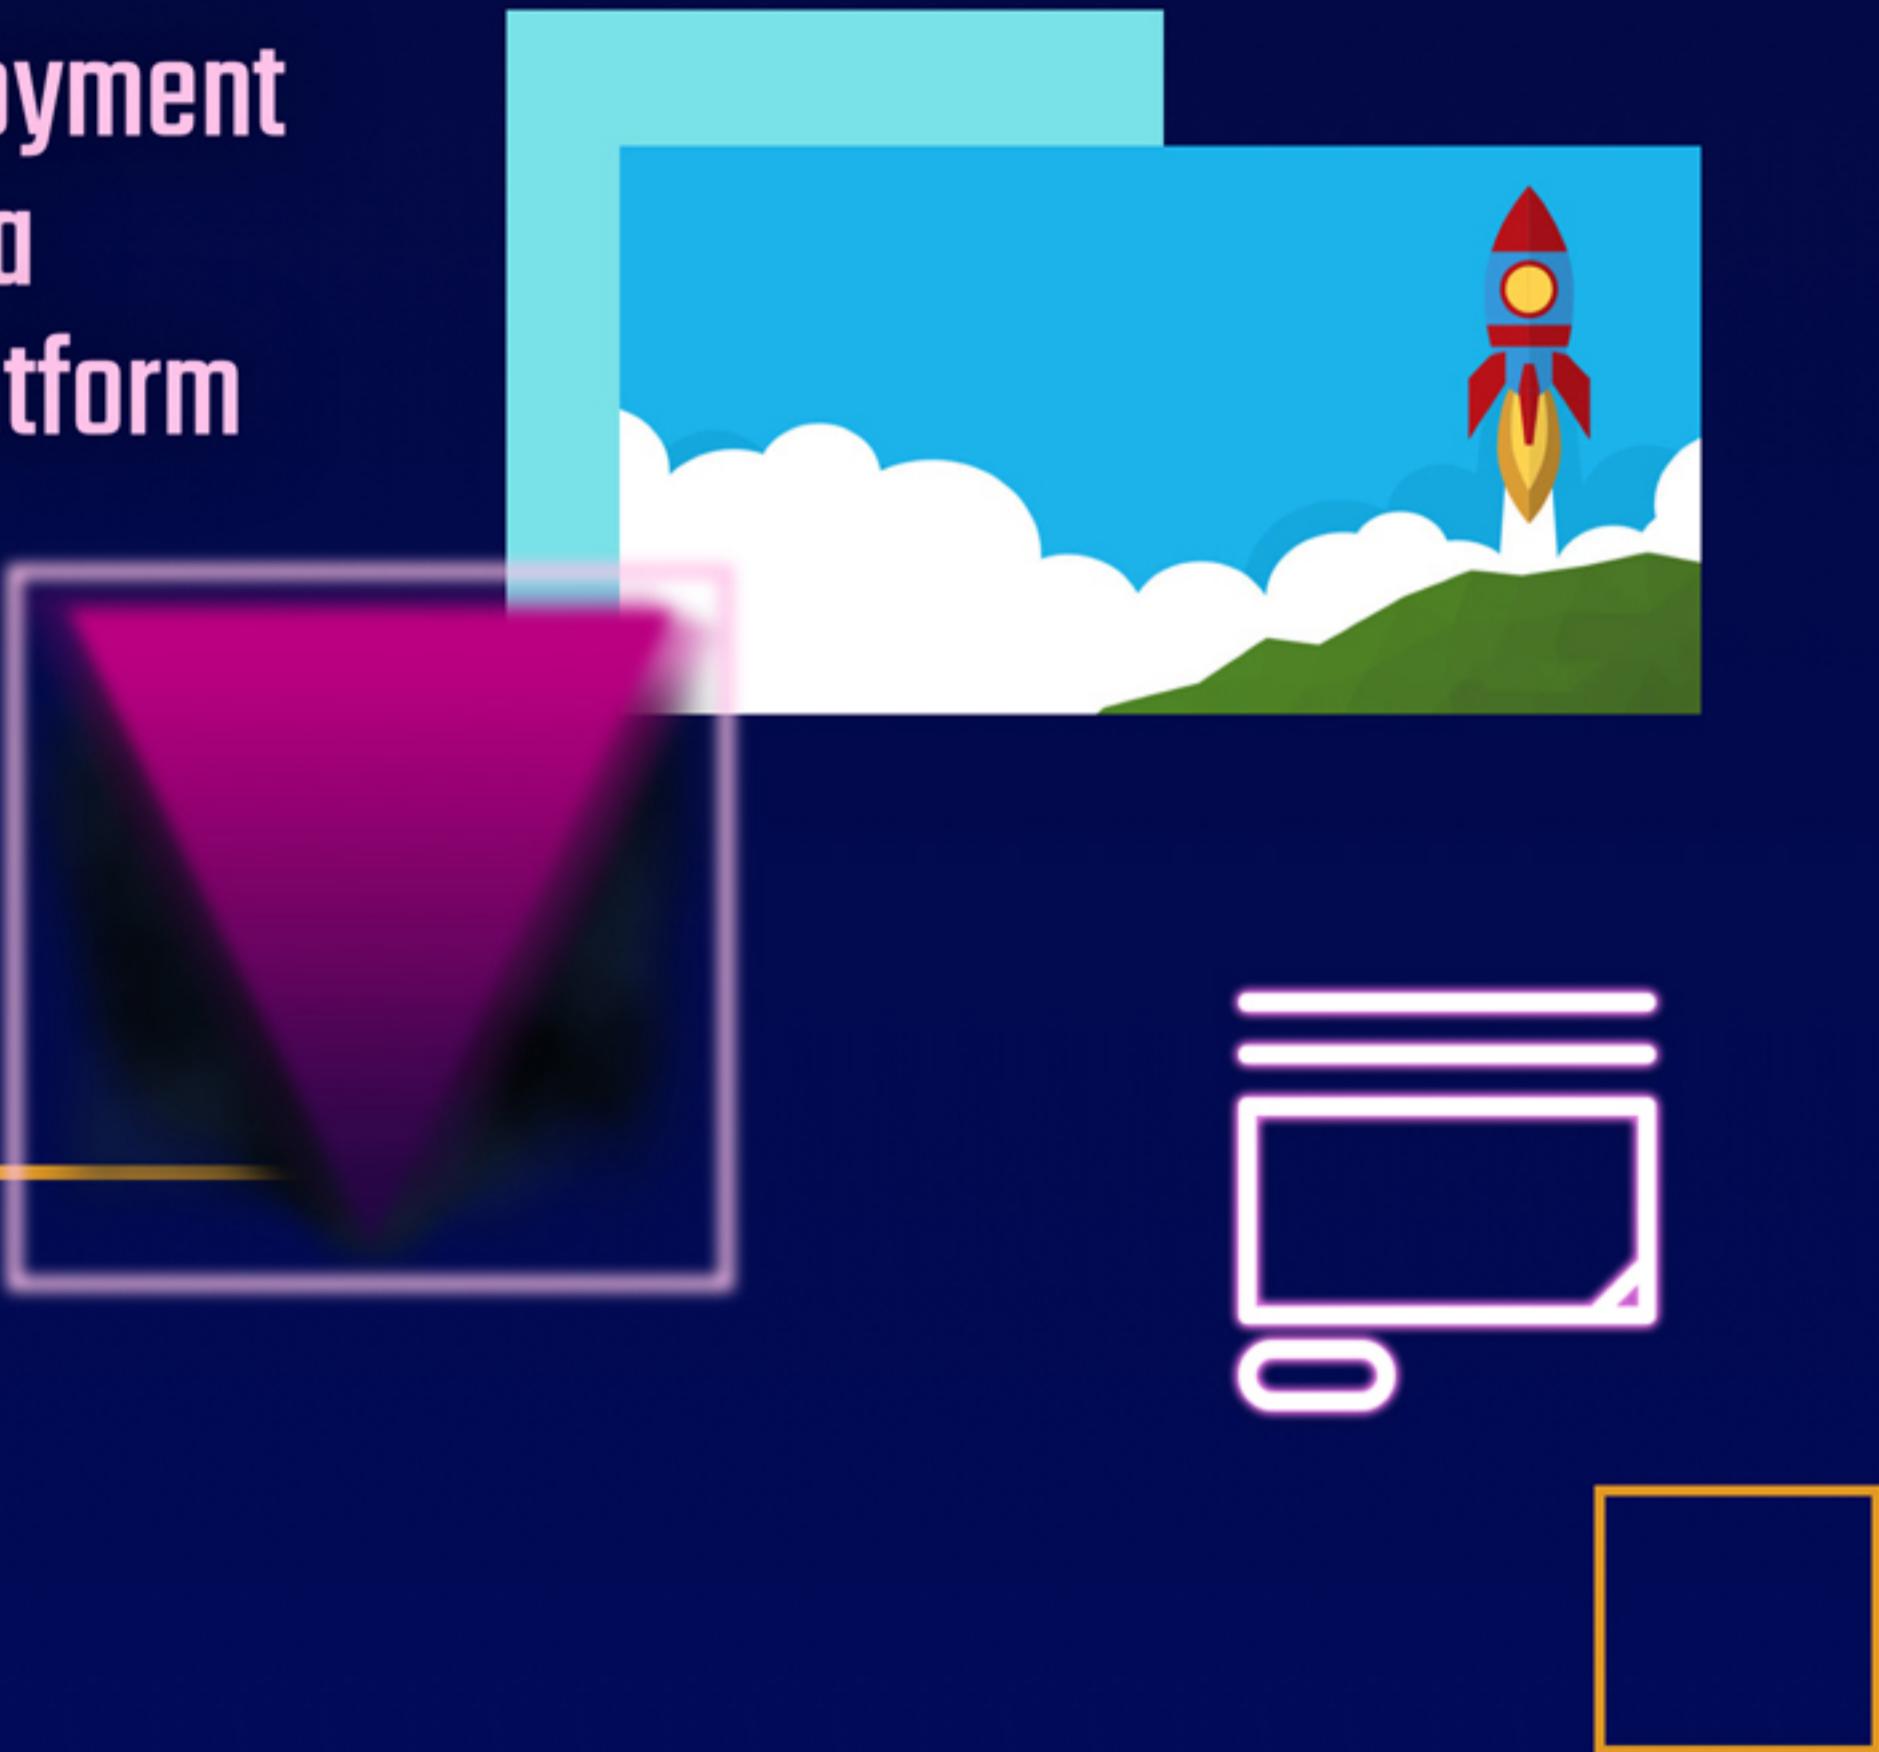

Github triggers Travis CI to build

Travis CI deploys to Heroku

Travis CI tells your team all is well

Pull request build flow

**Atomic Deployment
Showcase via
RunCloud platform**

Full process review

- GIT commit with Pull Request
- CI tests
- CD process
- Release
